With a Bachelor of Science in Psychology and four years of experience as a Behavioral Health Technician, I have developed a strong foundation in psychological assessment and patient communication, which I believe aligns well with your mission of providing compassionate and comprehensive psychological services.

My background has equipped me with essential skills such as crisis intervention and data analysis, allowing me to contribute effectively within multidisciplinary teams. I thrive in collaborative environments where empathy and effective communication are paramount. In my previous role, I engaged directly with clients, utilizing therapeutic techniques that emphasized client-centered care. This hands-on experience has deepened my understanding of the importance of personalized treatment plans tailored to individual needs. Additionally, I continuously seek professional development opportunities to stay informed about evidence-based practices that can enhance client outcomes.

I am particularly drawn to ABC Psychology Center's dedication to mental health awareness within the community. I share your vision for promoting emotional well-being through holistic approaches that empower individuals on their journey toward recovery.
